† These products promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics. These products have been classified as an Article 8 fundpursuant to the requirements of the EU SFDR.

Vanguard Group (Ireland) Limited has implemented the EU Sustainable Finance Disclosure Regulation (EU) 2019/2088 ("EU SFDR"), as appropriate. Vanguard has introduced an internal product classification framework that helps to identify whether certain Vanguard funds promote, among other characteristics, environmental and/or social characteristics, or whether a fund has sustainable investment as its objective. Vanguard also considers the degree to which sustainability risks are integrated into the investment decision making process. Statements explaining Vanguard's approach to the integration of sustainability risk, including into its remuneration policy and a transition statement to support the consideration of Principal Adverse Indicators (this is the impact of its investment decisions on sustainability factors, commonly referred to PAI), will be available on the policy page of Vanguard's global website.

Updates

X - Closed

UK - United Kingdom Bank Holiday

JP - Japanese Bank Holiday

US - Bank Holiday

G - Global Holiday

Assumptions

1. All holidays are based on Countries holidays where there is no Settlement.
2. No review has been carried out where the summation of the market closures is less than 25% of the fund.
3. Supranationals and "Other" fund weighting have been removed and the other countries have been upscaled recalculate the new fund weightings.
4. Fund holdings were taken as of 31 August 2021
5. Bloomberg do not provide a complete list of country holidays until the start of 2022, where the list is incomplete, the data has been sourced from online (mainly small countries).

Notes

1. USD Emerging Markets Gov Bond ETF needs to follow the same schedule as the other USD products. The global nature of the fund's holdings can be deceiving, but these hard-currency bonds effectively trade with the US market, so should be closed whenever the US bond market is closed (and the Global Aggregate lineup is closed due to the US market closure).

2. Need to add 10 Oct (Columbus Day) and 11 Nov (Veterans Day) as USD ETF and Global ETF/Fund holidays where applicable. The US bond market is closed even though the US equity market is open. For reference, we are closing our USD UCITS ETF and USD/Global Agg based funds with heavy USD exposure on these funds and ETFs in 2019 for this reason. US FI funds are open today as they FVF, but we don't in Ireland so they are closed.

3. Christmas and Boxing Day, as has been done previously, closing the European Funds.

4. Closed in line with EUREX
